

CAMPANA STUDIO

Designers Humberto & Fernando Campana

INTRODUCTION

Co-founded in 1984 by brothers Fernando (1961) and Humberto (1953) Campana, the Campana studio has achieved international recognition for its furniture design and intriguing pieces. In 2019, the studio celebrated its 35th anniversary acknowledged as a pioneer of disruptive design, which led them to create a groundbreaking language in their field.

Deeply rooted in Brazilian culture and traditions, their work carries universal values at its core, such as freedom and human dignity, creating their identity through life experiences. By incorporating the idea of transformation and reinvention, their creative process raises everyday materials to nobility. Brazilian characteristics - such as the abundance of colors, mixtures, and creative chaos - bring the triumph of simple solutions, poetically.

Based in São Paulo, Campana is constantly investigating new possibilities within Design: from furniture making to architecture, landscaping, fashion, scenography, and more. Bridging disciplines and encouraging the exchange of expertise among communities and artists are vital sources of inspiration, fresh repertoire, and free-thinking. Working with multiple brands and industries allows them to combine the best of craftsmanship, sustainable production practices and state-of-the-art technologies.

The Campana Brothers are currently listed as one of the world's top iconic architects at Interni (2018). In 2015 and 2014 Wallpaper ranked them, respectively, among the 100 most important and 200 greatest design professionals. In 2013, they were listed by Forbes magazine among the 100 most influential Brazilian personalities.
