24 karat yellow gold-plated metal with glass-top.

Taking its inspiration from the dazzling Sun, the Aristas Oval Table has been designed with a round negative space in its centre and radiating beams of lines and facets around it. Using the luminous star as its archetype, the Aristas Oval Table has been plated in gleaming 24 karat yellow gold. The vertical facets of the table are hand-embossed with the intricate textures and the sharp lines and the rippled surfaces of the horizontal planes of the table are hand-polished to a high sheen, casting playful reflections of light and catching the attention of the viewers around it.
