Limited edition of 8 + 2AP

24 karat champagne gold-plated metal.

These unique sculptural plinths, finished in 24 karat champagne-gold and topped with embossment, can interlock with one another to form one larger exhibition podium. All metal facets, which make up the body of the Quartz Art Plinths are meticulously textured by hand or polished to a high sheen and scrupulously assembled into an art piece, which can serve the function of a console table or an exhibition podium. GARRIDO Quartz Pedestals are perfect for fitting seamlessly into awkward spaces as a joined set or as counterparts positioned against each other.
