Limited edition of 8 + 2AP

24 karat yellow gold-plated metal.

Created from 24 karat yellow gold-plated metal, the Areas Art Wall features a layering of angular geometric shapes. The art wall is composed of two sumptuous volumes, which can be interlocked to stage one monumental piece or be presented as a set of two smaller segments. This allows for the two volumes to be enjoyed in two different arrangements. Meticulously assembled from numerous irregular facets, the Areas Art Wall is a sculptural piece of collectable design, which will stand out for its playful artistry.
