Limited edition of 8 + 2AP

Nickel and nickel alloy-plated metal.

The sculptural Aristas Console Table is crafted from onyx coloured nickel alloy-plating with table-top executed in anthracite-coloured nickel. The piece's richly dark table-top is meticulously worked with embossed textures. The rippled body of the console table is polished to a high sheen, to creating a luminous effect. The Aristas Console Table is an unconventional jewellery-furniture piece, inspired by the Avant-garde notions of experimental design and unorthodox approach to aesthetics.
