Limited edition of 6 + 2AP

Nickel alloy-plated metal, with Nero Marquina marble-top.

The elegant Cilindros Square Table has been hand-crafted using nickel alloy-plated brass and topped with an extraordinary Nero Marquina marble slab. The marble's richly black colouring compliments the high sheen Onyx plated cylinders, which make up the body of the table. Each one of these column-shaped components different in size has been hand-shaped into a perfect geometrical form and assembled with great level of precision. Hand-polished to a high gloss, these jewel-like pieces wedged together create a masterpiece, unique in its execution.
