The Cuspoid Oval Centrepiece is a marvellous eye-grabbing interior piece. Crafted by the skilled GARRIDO master silversmiths using the finest materials, that offer a flawless finish. One of the earliest designs developed in 1996 by Juan and Paloma Garrido in collaboration with their father - Damian Garrido, the founder of GARRIDO. The hand-constructed sculptural form is carefully forged in nickel-plated metal and polished by hand, to achieve a highly reflective surface.
