24 karat rose gold & nickel-plated metal.

The iconic Folds Table Set contains two asymmetrical segments, each plated in 24 karat rose gold and nickel. The pink and silver hues complement the tables, enhancing the shimmering effect and the interplay of colour and light. The highly ridged folds designed with the alternating high gloss finish and coarser frosting-like finish, create a strong dramatic effect. Adorned with luxurious textures and glistening nickel the table-tops are designed to ensure the longevity and functionality of the piece.
