Nickel alloy-plated metal, with Nero Marquina marble-top.

The exquisite Large Cilindros Low Table has been hand-crafted using nickel alloy-plated brass and includes an exquisite Nero Marquina marble-top. The marble's richly black colouring compliments the high sheen Onyx plated cylinders, which make up the body of the table. Each one of these column-shaped components different in shape and size has been hand-shaped into a perfect geometrical form and assembled with great level of precision. Hand-polished to a high gloss, these jewel-like pieces wedged together create a masterpiece, unique in its execution.
